The Eclipse D1

information and specifications

12 channels of white ink, plus CMYK. Now your printing one pass dark fabrics with incredibly high speed production rates.

The DTG Eclipse is a unique blend of our traditional inkjet technology that has now been re-engineered for higher production rates.

Perfect for 1 shirt to 1000 the DTG Eclipse D1 offers advanced speed - accuracy and print quality with stunning vibrancy.

Utilising dual head technology we have created the ultimate printer at a very affordable price.

There's no need for 2 or 3 pass prints - the DTG Eclipse D1 has revolutionised garment printing and lays down the exact amount of ink you need to keep your customers smiling. All in one pass on the fly!

At 1440 dpi white and 720 dpi colour prints simultaneously you can print a full 300 x 400 mm image in under 2 minutes.

How does 75 - 95 prints per hour sound in one pass? It's all there with the DTG Eclipse D1 - now you're competitive on more levels across more markets.
