The Xpress

information and specifications

Our granddaddy of production!

If high volume low cost prints are the answer to your production problems - our DTG Xpress can print 1000s of garments per week

HIGH VOLUME...

If you're printing textiles in either panels or finished garments then you have the ultimate production answer. Super large prints, 12 at a time or standard smaller size images at 15 to 20 garments in one pass!

Packaging prototypes, short run package or box printing, real estate signage and more.

All popular sign media and standard board stock fit conveniently on the larger Xpress bed adjustable to 350mm (14 inches).

All with NO setups NO Screens NO messy Inks NO cleanup NO Film and NO skilled operators.

With DTG Xpress you have the ability to print a large 1120mm x 2500mm (44.8 x 100 inches) area in 360 to 2880dpi resolution and with 8 colour piezo print heads. We have the ultimate printer with the DTG Xpress.
